

## **Penticton's Twin Lakes Golf Course –Appoints New Manager and Head Professional, Greg Pidlaski, CPGA**

**Kaleden, BC, March 15, 2010** – Twin Lakes Golf Course Ltd, an established golf course located in the South Okanagan area, has appointed **Greg Pidlaski, CPGA** to the position of Manager/Head Professional starting March 18, 2010. In this position Pidlaski will report directly to the ownership group.

Prior to his new role at Twin Lakes Golf, Pidlaski served as Head Golf Professional at Kelowna Golf & Country Club for 19 years and is a former touring professional on the Canadian, South African, European, New Zealand and Australia Tours.

During his time with Kelowna Golf & Country Club, he managed through major transitions in the golf course and clubhouse building. These experiences will provide a tremendous asset for the changes planned both at the Twin Lakes course and real estate development currently in progress on the upper bench overlooking the golf course.

"Greg has outstanding credentials, and is well respected in the industry from not only his peers, but by those who have dealt with him, which makes him a great fit for Twin Lakes Golf and its current direction. As a seasonal golf course, we recognized that we needed someone like Greg to continue growing the business," explained Chris Couzelis.

"I am thrilled to be joining Twin Lakes Golf Course. I see the value of the mission statement of making Twin Lakes Golf *"the best place to work and a golf course for everyone,"* said Pidlaski. "I look forward to taking a lead role in continuing to develop the core membership group who respect a traditional golf culture and a club that is supported by the community."

### **About Twin Lakes Golf Course**

Located 15 minutes from Penticton Airport in beautiful sunny South Okanagan, Twin Lakes has a 18 hole championship golf course in a spectacular setting and with the nearby trout stocked lakes, hiking/biking trails and Apex Mountain Ski Resort, all which will provide the Twin Lakes area with year round activities. Over the past two years, the new Ownership Group has been investing in improving the golf course playability and conditions with the goal to have the course as a must play when golfers visit the South Okanagan area. In tandem, a 200+ lot sub-division overlooking the golf course is the secondary project in process and when complete will create an expanded Twin Lakes community.
